Suggested Script:

"This is (your name & call-sign), we have just experienced an earthquake. I am operating a damage information collection net, this is a directed net. I cannot dispatch any emergency service, if you have an emergency please call 9-1-1.

We will be collecting information using the SARES Quadrant outline and the Mike-Mike scale. We only need reports for Mike-Mike 6 and above. We will take reports from five (5) call-signs at a time only as follows; Give your call-sign & wait for acknowledgement - you will be called, then provide the information in the following order: call-sign - Quad number - Mike-Mike number - call-sign.

First 5 call-signs, please."

Acknowledge 5 call-signs at a time, then call each call-sign to obtain report. The chart attached is prepared to assist in an expeditious Mike-Mike gathering tool.

Here is the pertinent Mike-Mike information:

Modified Mercalli (Mike-Mike) Scale

MM1 – Not felt at all

MM2 – Felt by persons at rest, on upper floors

MM3 – Felt indoors; objects swing; like light truck passing

MM4 – Windows, dishes rattle; standing cars rock; walls creak

MM5 – Felt outdoors; liquids disturbed/spilled; pictures move; doors swing; small items displaced

MM6 – Windows, dishes, glassware broken; books off shelf; pictures off walls; furniture moved/toppled

MM7 – Difficult to stand; noticed by drivers of cars; waves on ponds; furniture broken; chimneys, plaster fall

MM8 – Steering of cars affected; damage to masonry; towers & elevated tanks fall; branches broken; frame houses move
